

AQUA PHARMA

C-RANGE

Our semi-automated dosing system, designed to accurately dose pharmaceutical grade 50% Hydrogen Peroxide.

Equipment highlights:

- Semi-automated dosing
- Combination of PLC and manual control
- Dosing at up to 1200Lpm
- Alternative medicine capacity
- Compatible with central & lay-flat dispersal systems
- Housed in an insulated ISO 10ft shipping container
- Simple, reliable and safe package

The C-Range has the capability of dosing both Hydrogen Peroxide and alternative medicines, as well as drawing water samples back to the container.
