

AQUA PHARMA

S-RANGE

Our flagship dosing system, designed to accurately dose 50% pharmaceutical grade Hydrogen Peroxide.

Equipment highlights:

- Fully automated dosing
- PLC controlled & monitored
- Self-regulating dosing at up to 2500Lpm
- Alternative medicine capacity
- Compatible with central dispersal systems
- Housed in an insulated ISO 10ft shipping container
- Maximum dosing accuracy in a user friendly package
- Capacity for remote control and data logging

The S-container has the ability to dose Hydrogen Peroxide and alternative medicines, as well as drawing water samples back to the container.
