

AQUA PHARMA

W-RANGE

Our well-boat specific dosing system, designed to accurately dose pharmaceutical grade 50% Hydrogen Peroxide.

Equipment highlights:

- Fully automated
- PLC controlled & monitored
- Self-regulating dosing at up to 1000Lpm
- Alternative medicine capacity
- Compatible with well-boat dispersal systems
- Housed in an insulated ISO 10ft shipping container
- Maximum dosing accuracy in a user friendly package
- Capacity for wheel-house control, remote control and data logging

The W-container has the ability to dose Hydrogen Peroxide and alternative medicines into vessel wells.
